

Croc&Play - Project 5 - Ukelele

Lets the music sound! Play the hero ukulele with scratch and your Croc & Play kit. Build your own ukelele!

Download the templates you will find here to trim and shape your ukulele.

LEVEL OF DIFFICULTY: Begginer.

DURATION OF THE EXERCISE: 30 min.

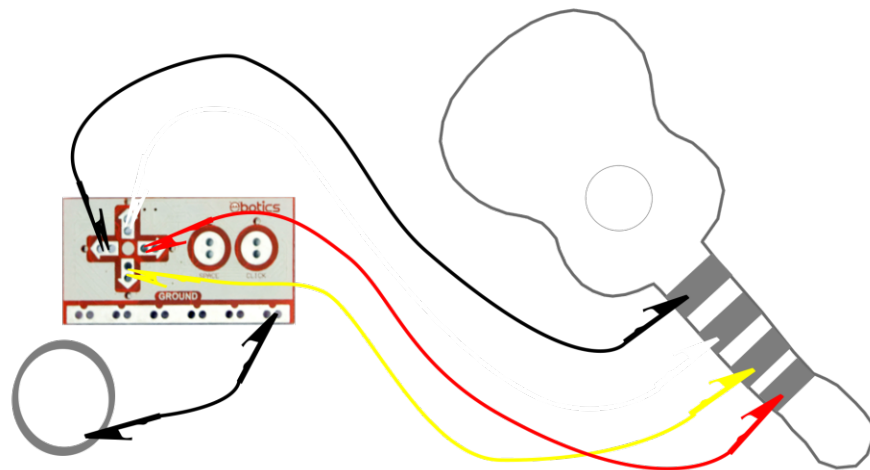

MATERIALS:

- Croc&Play kit
- Carton and paper

- Adhesive
- Foil
- Computer

STEPS TO FOLLOW:

1. Download the template, paste it on cardboard and cut out the figure of the ukulele
2. Glue or roll 4 strips of aluminum foil for the dishes
3. Using crocodile cables, connect:
 - Aluminum first fret (the one outside) to the left arrow of the Croc & Play board
 - Aluminum second fret to arrow up Croc & Play board
 - Aluminum third fret to arrow down Croc & Play board
 - Fourth aluminum fret to right arrow of Croc & Play board

4. Make yourself a foil bracelet that touches your skin, and connect another crocodile cable from the bracelet to GROUND on the Croc & Play board
5. Connect the Croc & Play board to the computer
6. Press the green flag in the image above, tap the *space* button on the Croc & Play board to start the program, and play!

Watch the video of our assembly:

PROGRAM:

Click on the green flag below, touch *space* button on your Croc&Play board to start the program, and play!

Program made with Scratch, you can see how it is done or continue playing from its website: Open "Ukelele - hero" on Scratch website

FINAL RESULT:
